

Here is a list of Ham Radio Nets that I run, or check into each week. Nets noted with an exclamation point ! are nets where I am either Net Control, or Webmaster. Other nets are OPTIONAL (checkin is NOT guaranteed). You can find other Echolink Nets are at <http://tinyurl.com/cl439r> (not all nets listed there may be operational); and other D-Star Nets at <http://www.dstarinfo.com/nets.aspx> – last minute net cancellations may occur, and if I'm involved in severe weather operations, or if there are thunderstorms in the central Arkansas area, my net involvement with any nets listed below is SUSPENDED. All net times listed below are in U.S. Central Time. If you have any questions/comments, login to the QRZ website, search for AE5WX; my email is listed there. Other Echolink and D-Star Nets may be added to this listing later. This list was last updated on Jan. 24, 2012.
